Project Planning Phase

Product Backlog, Sprint Schedule, and Estimation

Date	24 June 2025
Team ID	LTVIP2025TMID55161
Project Name	Docspot
Maximum Marks	5 Marks

DocSpot is a modern web-based healthcare appointment system designed to streamline how patients, doctors, and administrators interact within the digital health ecosystem. With intuitive workflows, real-time scheduling, secure communication, and role-specific dashboards, the platform aims to replace outdated appointment systems with a scalable and user-friendly alternative.

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority
Sprint-1	User Authentication	USN-1	As a user, I can sign up and log in securely.	3	High
		USN-2	As a user, I can reset my password if I forget it.	2	Medium
Sprint-2	Doctor Discovery & Booking	USN-3	As a patient, I can search and filter doctors by location and specialty.	2	High
		USN-4	As a patient, I can book appointments based on available time slots.	3	High
Sprint-3	Profile Management	USN-5	As a doctor, I can set and update my profile and availability.	3	High
		USN-6	As a patient or doctor, I can edit and manage my profile details.	2	High
		USN-7	As a user, I can view my past and upcoming appointments.	2	Medium
Sprint-4	Notifications, Reviews & Settings	USN-8	As a user, I receive reminders and alerts for appointments via SMS or email.	2	High
		USN-9	As a user, I can leave a review for a doctor after the appointment.	2	Medium
		USN-10	As a user, I can change my password securely from my dashboard.	2	Medium
